

# Welcome to the WSDOT project map application

This interactive map application provides access to WSDOT Transportation project information. This application is meant to be a resource for the public, Legislature, city and county organizations, Tribes and WSDOT staff. The update timeframes for the transportation project information presented in this application can be found in the metadata. 

If you have questions about the data or you would like to provide feedback please visit <http://www.wsdot.wa.gov/Contact/webfeedback.htm>.

**Planned Projects (1325 features, 0 selected)**

State Route Number	Project Title	County	Legislative District	Revenue Package	Sub Category	Program Number
395	US 395/NSC BNSF Railway Structures/Realignment	Spokane	03, 04, 06, 07	2003 Nickel / TPA Combined	Urban Mobility	600004A
167	SR167/I5 to SR509 - Phase 2	Pierce	25	2015 Connecting Washington Pkg	Urban Mobility	318707T

## HOW TO USE THE PROJECT MAP APPLICATION

### Filter

The window on the left side of the map contains tools that will allow you to filter the project data based on a set of predefined criteria (e.g. State Route, County, Legislative District, etc.).

Use the filters to select criteria to limit projects shown on your map.

Use the dropdown lists to select your filter criteria.

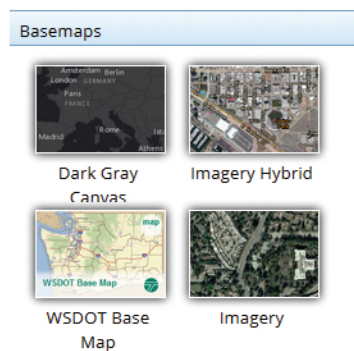

The Advanced filter can be accessed by clicking the *Advanced* link. This will open up additional, less common detail filters. Once your filters have been selected, click *Submit*. To clear your filter selection, and see all projects click *Reset*.

## Layers

Click on the *Layers* tab to bring up available map layers. Make layers visible by clicking in the check boxes to the right of their name. Click on the dropdown arrow to the right of the layer name to see more options for controlling the way the map layer is displayed.

## Basemaps

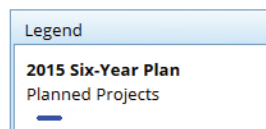

To change the background map, click on the *Basemaps* tab to show the basemap gallery. Click on a basemap from the gallery to select a new map.

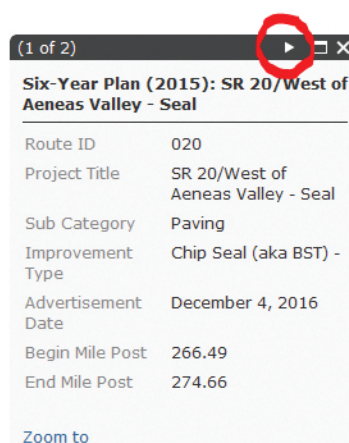

## Legend

The *Legend* tab displays the symbology for each map layer.

For example, the blue line in the picture below shows the symbology that represents each project limit identified in the Six-Year Plan (2015) data.

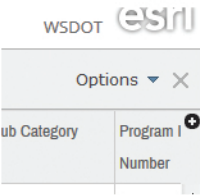

To find out more detailed information about a project, click on the line on the map. An information window (popup) will appear at the selected location. Project limits can overlap. If more than one feature overlap there will be an arrow in the top right corner of the box.

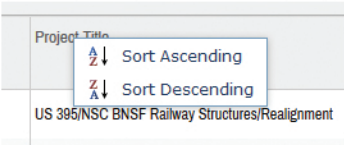

Project information is also presented in the table located at the bottom of the screen. Double click on a project in the table to highlight the project in the map view, and to zoom in to the selected project double click. Use the scroll bar on the bottom and right sides of the table to see the entire record.

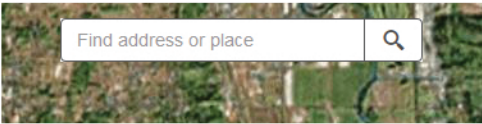

There are additional fields that can be accessed by selecting the *Options* drop down.

To sort fields click on the table field header.

To search for an address use the search box in the upper right corner

To zoom in and out on the map, click on the plus or minus icon. 

Click on the *Home* button to zoom to Washington State. 

Use the *Information* button to learn more about the project data on the map. 

To provide feedback, click on the *Feedback* button. 

To return to the WSDOT home page click on the WSDOT logo. 

To see more of the map, reduce the size of the table by clicking and dragging down the small line between the map and the table.
